

Raleigh County Landfill Lanark, West Virginia

Presented at 5th Annual LMOP Project Expo – December 14, 2001

The Raleigh County Solid Waste Authority Landfill opened in 1975 and is expected to close in 2075. The site consists of an older section that closed in 1994, and a newer active section that opened in 1994 that is expected to remain open until 2075. The landfill is owned and operated by the Raleigh County Solid Waste Authority.

Landfill Specifications

Waste in Place	672,000 tons
Annual Tons	150,000 tons
LF Area	25 acres
Avg. LF Depth	40 feet

The site is located at 200 Fernandez Drive in Beckley, West Virginia. The older section is 25 acres in area and has passive vents for LFG. The landfill is considering installing an LFG collection system in the active 25-acre section. The landfill accepts approximately 150,000 tons of waste per year and has a total area of 400 acres. The landfill is not required by NSPS to install an LFG destruction system.

Please contact James Allen if you would like more information, or wish to discuss the possibility of a project.
